Education

Program	Specialization	Institute	Year	% / CGPA
BE	Computer Science & Engineering	Keshav Memorial Engineering College	2026	8.36 / 10
Diploma	Automobile Engineering	Masab Tank Government Polytechnic College	2023	8.8 / 10
10th ICSE	-	Living vikasa vidya vanam	2020	81.4 %

Professional Experience

- **Software Engineering Intern | Teleparadigm Networks Ltd.** (Sept – Nov 2025)
  - Developed a secure, **decentralized file-sharing** platform with role-based access controls to protect sensitive user data from **unauthorized access**. Implemented distributed storage methods and **dynamic permission controls** across network nodes, maintaining **high data privacy** while removing **single points of failure**.

- **Internship – Bharosa Module | Women Safety Wing, Telangana Police** (Dec 2024 – Jan 2025)
  - Supported **key public safety** initiatives at the Women Safety Wing's Bharosa Module by designing high-impact visual campaigns—including **T-Safe metro** ads reaching 500,000+ citizens—and analysing **operational data across 26 centres** to boost reporting efficiency, while managing **critical government workflows** like Daily Situation Reports and **Operation Smile 11**.

- **Industrial Training | Mithra Agencies** (June – Nov 2022)
  - Rotated across Service Technician, Service Advisor, Body Shop Technician, Body Shop Advisor, Spare Parts Executive, and Customer Care Executive functions, acquiring practical proficiency in vehicle servicing and maintenance, service coordination, body shop operations, spare parts management, and customer support while developing a comprehensive understanding of automotive dealership operations.

Projects

- **SecureShare | Decentralized Secure File Sharing and Communication Platform** (Sep 2025 – Mar 2026)
  - Developed a **tamper-evident communication system** combining a hardened Flutter client and a **modular FastAPI backend** with **IPFS** and **blockchain**-backed state integrity. Designed low-latency WebSocket messaging governed by strict **JWT/RBAC** policies and admin audit visibility, integrating client-side capture prevention (anti-screenshot/screen recording) and **self-destructing file transfers** to mitigate data exfiltration.

- **Question Paper Automation Tool (QPAT) | Automated Academic Assessment System** (April – Aug 2025)
  - Engineered a full-stack assessment platform pairing a **FastAPI** backend with a cross-platform **Flutter** client. Implemented **NLP-driven semantic checks**, automated syntax parsing, and Course Outcome alignment to dynamically balance questions against **Bloom's Taxonomy**, while **securing distribution** via encrypted, password-protected PDF exports with embedded BT-level analytics.

- **Social Media Investigative Assistant (SMIA) | Digital Forensic Documentation Tool** (Jan – May 2025)
  - Designed an extensible **forensic analysis tool** in Flutter, enabling structured case management and **tamper-evident evidence collection**. Implemented cryptographically sound timestamped screenshot capture, automated **investigative reporting**, and **hybrid local/cloud storage** under strict regulatory constraints to prevent non-compliant scraping and preserve audit trails.

- **Alcohol Detector with Vehicle Controlling System** (Jan – June 2023)
  - Engineered and implemented an **automated drunk-driving prevention system** using an **Arduino UNO and an MQ-3 sensor** to continuously monitor driver blood alcohol concentration. Engineered real-time threshold detection to trigger an immediate buzzer alert and disengage the vehicle's ignition system upon **detecting intoxication**, effectively mitigating alcohol-related accidents through reliable, **sensor-driven engine locking.**

Publications

- **Quantifying the Security-Utility-Latency Frontier: An Empirical Benchmark of Small and Medium Language Models Under Adversarial Injection** [IEEE ISDDC, Puducherry] (Accepted) (Sep 2026)
  - Evaluated five open-weight language models (Llama-3.2, Qwen-2.5) across 2,500 test queries against direct jailbreaks, indirect prompt injection, and obfuscation attacks on an isolated testbed; characterized the multi-objective Pareto frontier across attack robustness, over-refusal rates, and tail latency.

- **An Intelligent Decentralized Secure File Sharing System with Privacy-Preserving Access Control** [IEEE IC(SEC)², Coimbatore] (Accepted and Presented: To appear in IEEE Xplore) (Aug 2026)
  - Presented at the 2nd IEEE International Conference on Smart Systems for Electrical, Electronics, Communication and Computer Engineering; designed a decentralized file-sharing architecture integrating Blockchain, IPFS, Shamir's Secret Sharing, and an Isolation Forest anomaly detection model.

- **A Web-Based Automation Framework for Instagram Profile Forensics** *[IJRDET]* (Dec 2025)
  - Developed an automated, non-invasive digital forensic tool using FastAPI and Flutter to streamline evidence acquisition for investigations. Integrated Playwright engineered automated SHA-256 evidence hashing with timestamp validation and built dynamic PDF generation with ReportLab to produce court-admissible, tamper-evident forensic reports.

Skills

- **Cybersecurity & Forensics:** Vulnerability Assessment, Mobile & Digital Forensics, Network Scanning & Analysis.
- **Security & Forensic Tools:** Burp Suite, Wireshark, Nmap, Kali Linux, Metasploit.
- **Programming Languages:** Python, C, Java, Dart, SQL, JavaScript, HTML, CSS, Bash/Shell Scripting.
- **Backend & Web Technologies:** FastAPI, WebSockets, JWT Authentication, Role-Based Access Control (RBAC).
- **Mobile & App Development:** Flutter, Firebase
- **Distributed Systems:** Blockchain, IPFS, P2P Protocols.
- **AI & Applied Data:** NLP, Semantic Similarity, Text Classification, Scikit-learn/Spacy.
- **Tools:** Docker, Git/GitHub, Linux (Parrot, Kali, Fedora), Android Studio, VS Code, Jupyter Notebook.

- **Soft Skills:** Team Leadership, Problem Solving, Communication, Project Management, Technical Writing & Presentation
- **Spoken Languages:** English, Telugu, German (Beginner).

Certifications

- **Cyber Crime and Cyber Forensics Course** – National Law University Odisha – **[Scored 87%]** (Aug 2026)
- **Ethical Hacking Awareness Workshop** – XploitForge (July 2025)
- **Machine and Deep Learning Techniques Webinar** – Computer Society of India (CSI) (Mar 2025)
- **Cybersecurity with Ethical Hacking Workshop** – IIT Hyderabad (*Jan 2025*)

Activities and Societies

- **Social Media Team – Computer Society of India (CSI) KMEC**
  - Led multi-platform digital marketing initiatives and content creation to actively promote tech symposiums, hackathons, and skill-building workshops to the student body.
- **Student Body President**
  - Represented the student body to institutional leadership, spearheading campus-wide initiatives, policy improvements, and major events.
- **Event Organizer**
  - Coordinated logistics, scheduling, and cross-functional teams for flagship technical and cultural college festivals, driving high student participation and ensuring seamless event execution.
- **Carnatic Music Member & Performer**
  - Performed as a core classical vocalist/instrumentalist in institutional showcases and cultural competitions, honing advanced improvisation and discipline.
